

POOJA SONARE

Senior Associate Consultant — 4.5+ Years

🏠 Pune, Maharashtra 📞 7507877810 ✉️ poojasonare2712@gmail.com 👤 [Portfolio](#) 🐙 [Github](#) 🔗 [LinkedIn](#)

Profile Summary

Frontend Developer with 4+ years of experience building scalable, high-performance web applications using **React, TypeScript, JavaScript, and modern UI frameworks**. Strong in **data structures, algorithms, and real-time** data-driven UI development

Experience

Infosys

April 2025 – Present

Senior Associate Consultant

Pune, Maharashtra

- Updated existing React dev-extreme library components which boosted client satisfaction by 15 %.
- Build dynamic, interactive dashboard using React **D3.js, Material UI, tinycolor2** library to visualize **real time customer interaction data** for over **10M active users** and received 90 % success rate.

Quinnnox

May 2023 – March 2025

Consultant

Mumbai, Maharashtra

- Led the end-to-end development of multiple features of Third Party Risk Application using **jQuery, DataTables, JavaScript, and REST APIs, asynchronous handling**, resulting in a 60% increase in client engagement.
- Upgraded a React application** from **Node.js (10.0.0 to 18.20.1)** and **SPFx (1.11.0 to 1.18.2)** 50% faster than the planned timeline, optimized components, enhanced performance by 30%.
- Developed complex, scalable and reusable UI components using **React Router, Redux, and Hooks**, optimizing performance with both functional and class-based components.
- Analyzed new requirements, tested using **POC**, provided **efforts estimations**, and implemented functionalities, improving project efficiency and delivery timelines.

LTIMindTree

October 2020 – May 2023

Software Engineer

Pune, Maharashtra

- Documented and standardized project artifacts, including **estimation plans, WBD, defect sheets, design specs, UAT documents, user manuals, and release notes**, ensuring compliance with work standards.
- Implemented CRUD operations, Autosave functionality, and comment handling, contributing to smoother user experiences using **JQuery, Azure Logic Apps**.
- Handled production related issues for **React and Node.js**, achieving a 90% resolution rate for critical issues.

Projects

ShopSizzle | [GitHub](#) | [Live](#) | *React, Redux, css, HTML*

October 2023

- * Designed and implemented a cross-platform e-commerce app with **React + TypeScript + Redux Toolkit**, integrating Firebase for authentication, product data, and order management.
- * Implemented real-time inventory updates(search and filter and add or remove item from cart, place order) and offline support, ensuring seamless user experience across devices

Interactive-Dashboard | [GitHub](#) | [Live](#) | *React, TypeScript, Material-UI, D3.js*

June 2025

- * Built an interactive React + TypeScript dashboard with D3 and Material-UI featuring **drill-down pie charts, dynamic line chart filters** (checkbox date-range), and a customizable data table with sorting and pagination.

Technical Skills

FrontEnd: React, jQuery, JavaScript, HTML5, CSS3, Bootstrap, Material-UI, Typescript, Styled-Component

Databases: firebase, MongoDB

Tools and Services: RESTful APIs, Azure DevOps(Version Control), VS Code, Postman, git, Jira

Additional Skills: Data Structure and Algorithm, Problem Solving, Python, Node.js Rest API, RWD

Education

Siddhant Institute of Computer Application (Percentage: 76.21)

2021– 2023

MCA

Pune, Maharashtra

Sadabai Rasoni Women's College(Percentage: 80.64)

2017 – 2020

BSC-IT

Nagpur, Maharashtra
